RE: ***Indoor Air Quality Lab Reports***

The health, comfort, and learning environment of students and staff are important aspects of Flemington-Raritan Regional School District's mission. Flemington-Raritan Regional School District is strongly committed to the health and comfort of our students and staff, as well the environmental quality in our schools. It is important for all that our schools provide a safe, comfortable, and productive environment for our students and staff so that we achieve our core mission—educating students. Our district follows the guidelines by the U.S. Environmental Protection Agency (EPA) to prevent as many indoor air quality problems (IAQ) as possible and respond to any IAQ issues that may arise. For more information visit the EPA link [here](#).

External testing of air quality and surface testing was contracted to a professional outside consultant through R.K. Environmental. As part of the remediation and clean-up plan I am communicating with staff and parents the cleanup process and outcomes of the external testing. I have shared in multiple correspondences that after we had the results of surface and air sample testing I would communicate with all the results of the testing and any further action that was recommended or required. The attachments are quantitative and qualitative reports from the Occupational & Environmental Analysis, Inc. Professional Engineering Service Company; a professional company that specializes in health and safety, environmental affairs, and energy. Mr. Michael McGuinness, a building pathologist has provided reports from the Q Lab of Environmental Microbiology, 254 Bridge Street, Metuchen, NJ 08840. The lab results are posted for your review.

Please know that the health and safety of our students and staff is of the utmost importance to us. We are on target with the professional cleaning to have Copper Hill Elementary completely remediated and the humidity challenges resolved. I will continue to communicate with our community to address concerns.

Sincerely,

A handwritten signature in blue ink that reads "Kari McGann". The signature is fluid and cursive.

Kari McGann
