October 21, 2014

Honorable President Davidson Members of the Board of Education Flemington-Raritan Regional School District County of Hunterdon, New Jersey

## Dear President and Members:

The Comprehensive Annual Financial Report of the Flemington-Raritan Regional School District for the fiscal year ending June 30, 2014 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Flemington-Raritan Regional Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the district. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The Comprehensive Annual Financial Report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the management's discussion and analysis, the basic financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996, the U.S. Office of Management and Budget Circular A-133 Revised, "Audits of States, Local Governments, and Non-Profit Organizations," and the State OMB Treasury Circular Letter 04-04, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments." Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, is included in the single audit section of this report.

# 1) REPORTING ENTITY AND ITS SERVICES:

The Flemington-Raritan Regional School District is an independent reporting entity within the criteria adopted by the GASB as established by GASB Statement No. 14. All funds of the District are included in this report. The Flemington-Raritan Regional Board of Education and all its schools constitute the District's reporting entity.

The Flemington-Raritan Regional School District serves Flemington Borough and Raritan Township children providing a full range of educational services appropriate to grades K through 8. These include regular as well as special education for handicapped youngsters. Four elementary schools (Barley Sheaf, Copper Hill, Francis A. Desmares and Robert Hunter) house grades kindergarten through four. The Reading-Fleming Intermediate School houses grades five and six, and J.P. Case Middle School houses grades seven and eight.

The District completed the 2013-2014 fiscal year with an enrollment of 3418 students.

The following table presents the actual historical pupil enrollment, as of October 15, for the school years 2001-2002 through 2013-2014.

	Enrollment

2011-12	3,598	83%
2012-13	3,513	-2.36%
2013-14	3,388	-3.56%

# 2) ECONOMIC CONDITION AND OUTLOOK:

The Raritan Township section of the Flemington-Raritan Regional School District is experiencing a period of slowing residential development due to current economic conditions and has a seen decline in enrollment over the past four years.

The Flemington Borough section of the Flemington-Raritan Regional School District is expecting little development in the foreseeable future. Because of limited open space, the Borough is not expected to grow significantly and the tax base is expected to remain relatively level.

# 3) MAJOR INITIATIVES:

The Board of Education established four goals for the 2013-2014 school year.

- 1. Personnel- Efficiently plan and complete the Superintendent's and Board's Evaluation and Goals by dates established within state guidelines.
- 2. Communication- Improve internal communication among Board of Education members by focusing on specific areas in which Board members seek information and clearer understanding.
- 3. Community Relations- Identify strategies the Board can implement to encourage shared accountability for student and school success among all stakeholders.
- 4. Negotiations- Successfully negotiate new contracts for the FREA and FRAA that meet the needs of all stakeholders.

To achieve these goals, the District implemented a comprehensive program of professional development, curriculum materials, and instructional material adoptions.

# **Professional Development**

- The district continues to meet the requirement that all teachers be "highly qualified" in the grade level/subject areas that they are teaching.
- District staff was offered a wide variety of staff development opportunities during the summer.
- Workshops focused on improving teachers' use and familiarity with technology, teaching
  writing, increasing strategies for teaching math, and promoting positive classroom
  environments through Responsive Classroom, Response to Intervention (RTI), Full-day
  kindergarten and Common Core Curriculum.
- The district continued its commitment to a thorough induction process for all teachers hired within the past two years by offering specialized workshops for new teachers. These included New Teacher Writing, New Teacher Reading, New Teacher Science, New Teacher Math, Reading in the Content Area, New Teacher Special Education as well as district and building level orientations for our newest teachers.
- The district also supported its novice teachers through the development and implementation of our District Mentoring Program. Training was provided for all teachers intending to serve as Mentors. In addition, the district continues to provide on-going Mentor training throughout the school year and provided compensation for these teachers.
- The School Improvement Panels (ScIP) in each building outlined training needs as identified
  through a teacher survey, informal discussions with district and building level administration,
  and a review of test data. Building principals developed the ScIP plan with teachers and
  supervisors to identify building needs and provide training for those specific needs.

- The district continued its strong commitment to fostering teachers' use of technology as an
  instructional and communication tool. A variety of workshops were offered during the summer
  and computer teachers were provided regularly schedule time in their schedule to support the
  integration of technology in classroom lessons.
- The District also continued its efforts to participate effectively in the teacher and school leader evaluation reform efforts embodied in TEACHNJ and ACHIEVENJ through a partnership with Danielson Associates and Stronge Associates.

# **Curriculum Development**

The District maintained its commitment to the objective and thorough evaluation of curricular programs and the continual refinement and consistent implementation of curriculum documents.

A series of projects were implemented throughout the 2013-2014 School Year:

- 5-8 Computers
- Guidance Curriculum
- Kindergarten Curriculum Revision & additional Related Arts
- LAL Curriculum 1-5: Persuasive/Opinion Writing Unites
- LAL Curriculum 6-8: Pilot Evaluation of Passages Program
- Library 1-8: Technology and Digital Citizenship
- Math Curriculum Alignment and Benchmarks K-6
- Math Curriculum Model Drawing Lessons
- Music Curriculum 1-6
- Math Curriculum Alignment and Benchmarks 7-8
- Science Curriculum Alignment and Benchmarks 1-8
- Social Studies Curriculum 1-5 Benchmark Assessments
- Social Studies Curriculum 3-5: Identifying Priority Learning Activities and Refining Benchmarks
- Social Studies Curriculum 6-8: Refine Benchmarks and Use of Document Based Questioning
- Language Arts Student Support Data Analysis and Recommendations for Grades K-4.

The district also continues to effectively plan and manage funds provided through grants to further the goals of professional development for teachers and improved educational services to students.

- Title I funds were used to fund three class sections of Project Achieve for Kindergarten. This will change in the upcoming year with the addition of full-day kindergarten.
- Title II-A funds were used to fund the District's Mentoring Program, Summer Professional Development Program, as well as a myriad of language arts, math, and technology initiatives. In particular, funds were used to implement the ACHIEVENJ mandated teacher and principal evaluation training.
- Title III funds were used to fund the Summer ESL program, the FAD, RH and CH AfterSchool Homework Clubs, RFIS ESL Breakfast Club, and purchase innovative classroom materials.

Other on-going district programs were maintained and/or expanded during the 2013-2014 school year. These programs include the following:

- The district maintains its commitment to maintaining reasonable class sizes at all grade levels.
- Consistent with our approved Technology Plan and the District's Strategic Plan, the District refreshed the Reading-Fleming Intermediate School with new computers for their computer lab, new PC desktop computers for their media center, and iPads for teachers
- In addition, the District implemented phase 3 of a four phase plan to make significant improvements to the Technology Infrastructure. During the summer of 2011 new routers, wireless access points, switches/controllers, and new wiring (particularly at CH) were purchased/installed that now provide the District with dependable connectivity to the Internet and LAN while also provide a seamless wireless environment is all six of our schools. During the summer of 2012, the District changed phone providers with a new service medium that is significantly less expensive. The savings was used to significantly defray the costs of upgrading the District to a 100 mbps connection to the Internet and providing a 100 mbps WAN that now connects all six buildings using a fiber connection. This now allows us to add more wireless devices, utilize online resources that require more bandwidth to operate, and will allow us to move toward greater centralization of our technology backbone, a VoIP solution, as well as prepare us for a student BYOD or 1:1 computer environment. During the summer of 2013, the District HUB was relocated to JPC where emergency generators will ensure superior disaster recovery, installed power conditioning equipment at JPC, and replaced our aging servers with a virtualized server environment.
- The Reading Recovery program in Grade 1 was continued.
- The Student Support Math and Language Arts programs were revised as the district has begun to move toward Response to Intervention (RtI) in Language Arts.
- The G&T Math program was sustained with growth in the number of students qualifying for inclusion
- The G&T Stretch program was sustained with significant improvements to the curriculum and instructional delivery model.
- The School Counseling program was maintained
- The High-Intensity ESL program for Spanish-Speaking students was continued at all district schools, continued at the Francis A. Desmares Elementary School, as approved through the submission of the Bilingual Waiver application. In addition, the ESL Department was further expanded to now include 7.0 FTE staff members.

# 4) INTERNAL ACCOUNTING CONTROLS:

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse; and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally-accepted accounting principles (GAAP).

The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met.

The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal awards and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal awards and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

# 5) BUDGETARY CONTROLS:

In addition to internal accounting controls, the District maintains budgetary controls. The objective of these controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipalities.

Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section. An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year.

Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2014.

# 6) ACCOUNTING SYSTEM AND REPORTS:

The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements", Note 1.

# 7) <u>CASH MANAGEMENT</u>:

The investment policy of the District is guided in large part by the state statute as detailed in "Notes to the Financial Statements", Note 2. The District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

Based on the opinion of the Attorney General for the State of New Jersey, the district also invests in the MBIA-Cooperative Liquid Assets Securities System (CLASS) and the New Jersey Asset & Rebate Management public investment programs.

# 8) RISK MANAGEMENT:

The Board carries various forms of insurance, including but not limited to, general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds. A chart detailing the district insurance coverage's and applicable limits is included in the statistical section.

# 9) OTHER INFORMATION:

Independent Audit

State statutes require an annual audit by independent certified public accountants or registered municipal accountants.

The Board's finance committee selected the accounting firm of Suplee, Clooney & Company to conduct the annual audit. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act Amendments of 1996, the related OMB Circular A-133 Revised and State OMB Treasury Circular Letter 04-04. The auditor's report on the basic financial statements, combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

# 10) ACKNOWLEDGMENTS:

We would like to express our appreciation to the members of the Flemington-Raritan Regional Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. In addition, the preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

Respectfully Submitted,

Gregory T. Nolan

### **INDEPENDENT AUDITOR'S REPORT**

Honorable President and Members of the Board of Education Flemington-Raritan Regional School District County of Hunterdon Flemington, New Jersey 08822

## Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Flemington-Raritan Regional School District, County of Hunterdon, New Jersey as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

# Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, audit requirements prescribed by the Division of Finance, Department of Education, State of New Jersey, the provisions of U.S. Office of Management and Budget (OMB) *Circular A-133* "Audits of States, Local Governments and Non-Profit Organizations" and State of New Jersey *OMB Circular 04-04* "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid." Those standards and provisions require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

# SUPLEE, CLOONEY & COMPANY

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Flemington-Raritan Regional School District, County of Hunterdon, New Jersey as of June 30, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and budgetary comparison information in Exhibit C-1 through C-3 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Flemington-Raritan Regional School District's basic financial statements. The accompanying supplementary information schedules such as the combining and individual fund financial statements and the Schedules of Expenditures of Federal Awards and State Financial Assistance, as listed in the table of contents, as required by U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments and Nonprofit Organization," New Jersey's OMB Circular 04-04, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid," and the State of New Jersey, Department of Education, Division of Finance, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

# SUPLEE, CLOONEY & COMPANY

The accompanying supplementary information schedules such as the combining and individual fund financial statements and the Schedules of Expenditures of Federal Awards and State Financial Assistance, as listed in the table of contents, as required by U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments and Nonprofit Organization," New Jersey's OMB Circular 04-04, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid," and the State of New Jersey, Department of Education, Division of Finance is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The other information, such as the introductory and statistical sections, has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express on opinion or provide any assurance on it.

# Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated October 21, 2014 on our consideration of the Flemington-Raritan Regional School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Flemington-Raritan Regional School District's internal control over financial reporting and compliance.

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2014 UNAUDITED

The Management's Discussion and Analysis of the Flemington-Raritan Regional School District (FRSD) offers readers of the District's financial statements a narrative overview of the financial activities for the fiscal year ended June 30, 2014. The intent of this discussion is to look at the District's financial performance as a whole; therefore readers should also review the transmittal letter at the front of this report, along with the District's financial statements and notes to the financial statements to enhance their understanding of the District's financial performance.

The Management's Discussion and Analysis (MD&A) is an element of Required Supplementary Information (RSI) specified in the Governmental Accounting Standards Board's (GASB) Statement No. 34 -Basic Financial Statements and Management's Discussion and Analysis of State and Local Governments, as amended and supplemented.

# **Financial Highlights**

Key financial highlights for 2013-14 are as follows:

- In total, the net position of the District at June 30, 2014 was \$18,381,708. Governmental activities accounted for \$17,952,625 of the total while Business-type activities accounted for the remaining \$429,083. Governmental activities include the operations of the General Fund, Special Revenue Fund, Capital Projects Fund and the Debt Service Fund of the District. Business-type activities comprise the operations of the District's food service program.
- The increase in the net position of the District at June 30, 2014 was attributable to an increase in Governmental activities of \$1,381,873 and a decrease in Business-type activities of \$27,760 as outlined in Exhibit A-2.
- The school district also received an additional State aid award of \$372,418 in June 2014 to provide for a fraction of the extraordinary costs attributable to the special education program

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2014 UNAUDITED

#### **Overview of the Financial Statements**

This Comprehensive Annual Financial Report ("CAFR") consists of three parts: Management's Discussion and Analysis (this section), The Basic Financial Statements, and Required Supplementary Information. The Basic Financial Statements include two kinds of statements that present different views of the District, District—wide Financial Statements and Fund Financial Statements.

- District-Wide Financial Statements provide both short-term and long-term information about the District's overall financial status.
- Fund Financial Statements report the District's operations in more detail than the District-wide statements on individual parts of the District, the Governmental Funds, Proprietary Funds and Fiduciary Funds.
- Governmental Funds Statements tell how basic services such as regular and special education were financed in the short-term as well as what remains for future spending.
- Proprietary Funds Statements offer short and long-term financial information about the activities the District operates like a business, which include food services.
- Fiduciary Funds Statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

The notes to financial statements are also included, which are an integral part of the financial statements. The information in the notes provides detailed data on the District's financial operations.

Required supplementary information further explains and supports the financial statements with a comparison of the District's budget for the year. Exhibit A-1 reflects how the various parts of this annual report are arranged and related to one another

### District-Wide Financial Statements

The District-Wide Financial Statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the District's assets and liabilities. All current year's revenue and expenses are accounted for in the statement of activities regardless of when cash is received or disbursed.

The District-Wide Financial Statements report the District's net position and how they have changed. Net position, the difference between the District's assets and liabilities, is one way to measure the District's financial health or position. Over time, increases or decreases in the District's net position are an indicator of whether its financial position has improved or diminished. The causes of this change may be a result of many factors, some financial and some not. Non-financial factors include the District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2014 UNAUDITED

In the District-Wide Financial Statements, the District's activities are divided into two categories, governmental and business-type activities.

- Governmental activities All of the District's programs and services are reported here
  including, but not limited to regular and special education instruction, support services,
  operation and maintenance of plant facilities, pupil transportation and extracurricular
  activities. Property taxes and state formula aid finance most of these activities.
- Business-Type activities These services are provided on a charge for goods or services basis to recover all the expenses of the goods or services provided. District charges fees to help it cover the costs of certain services it provided. The food service activities are reported as business activities.

#### **Fund Financial Statements**

The fund financial statements provide more detailed information about the District's funds, focusing on major funds. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes (i.e. long-term debt) or to show that it is properly using certain restricted revenues (i.e. entitlement grants).

The District maintains three financial funds:

- Governmental Funds: The District's activities reported in governmental funds focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future years. These funds are reported using an accounting method called modified accrual accounting that measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the government-wide Statement of Net Position and Statement of Activities) and governmental funds statements is reconciled in the financial statements.
- Proprietary Funds: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the District-wide financial statements. The District's enterprise funds (one type of proprietary fund) are the same as its business-type activities but provide more detail and additional information, such as cash flow.

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2014 UNAUDITED

Fiduciary Funds: The District is the trustee, or fiduciary, for assets that belong to others, such as scholarship funds and the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the District-wide financial statements because it cannot use these assets to finance its operations.

# Financial Analysis of the District as a Whole

The District's combined net position has increased from the 2012-2013 fiscal year. The net position from governmental activities increased \$1,381,873. Net position from business-type activities decreased \$29,760. The increase in the restricted net position from prior year is primarily due to the transfer of unrestricted surplus to the capital reserve fund. Exhibit A-1 below reflects the District's net position as a whole. Exhibit A-2 reflects the changes in net position from operating results.

# Sources of Revenue for Fiscal Year 2014

The District's total revenue for the 2013-2014 school year was \$62,861,375 as reflected in Exhibit A-3 below. Property taxes accounted for 77.95 percent of the total revenue with the other 22.05 percent consisting of state and federal aid, charges for services, and miscellaneous sources.

### **Expenses for the Fiscal Year 2014**

The total expenses for the 2013-2014 fiscal year for all programs and services were \$61,507,798. Exhibit A-4 below summarizes these program costs. The District's expenses are predominantly related to instructing, providing services and transporting students, grades kindergarten through twelve, which accounts for 75.85 percent of the total District costs. Administrative and business expenses account for the costs of the Office of the Superintendent of Schools, the Business Office, and the Principal's Offices in all six school buildings. Maintenance and operations account for the costs of keeping the school buildings and grounds safe, clean and in good operating condition, and includes all the utility costs related to the school facilities. Other costs include interest on long-term debt, unallocated depreciation expense and the costs of the business-type activities of the proprietary funds. It is important to note that depreciation expense on capital assets is included in expenses for the year under the GASB entity-wide reporting model; expenses therefore include \$1,836,172 for depreciation.

### **General Fund Budgeting Highlights**

The School District's budget is prepared according to New Jersey law, and is based on accounting for certain transactions on the basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

Over the course of the year, revisions were made by the District to the annual operating budget. Revisions in the budget were made to recognize revenues that were not anticipated and to prevent overexpenditures in specific line item accounts. In addition, the following revision is noteworthy:

 TPAF, which is the state's contribution to the pension fund, is neither a revenue item nor an expenditure item to the District but is required to be reflected in the financial statements.

#### For the Future

The Flemington-Raritan Regional School District, encompassing 38 square miles, is a community of children and adults living, learning, and working together. In addition to fostering students' intellectual growth, we focus on enhancing their self-esteem and developing strong personal character.

The many programs we offer, in and beyond the classroom, provide opportunities for children to explore new interests, gain self-confidence, socialize, and learn from one another. Coupled with an outstanding instructional program, these stimulating experiences support and nurture the total child. Our commitment to staff development, high-quality instructional programs, enrichment activities, and enhancing student self-esteem support our philosophy of educational excellence. Our mission statement supports these endeavors:

The Flemington-Raritan Regional School District provides our students with an exceptional education, empowering them to become problem solvers, collaborators and critical thinkers. The district creates a culture in which students act responsibly and communicate effectively in preparing to become citizens in a changing, global society. It is the expectation of the Flemington-Raritan Regional School District that all pupils achieve the New Jersey Core Curriculum Content Standards at all grade levels.

We actively involve the community in our schools. Classroom volunteers, advisory study groups, guest speakers, and active Parent-Teacher Organizations significantly elevate the level of educational experiences we provide for our students.

The District's four elementary schools offer students in grades K-4 a comprehensive educational program emphasizing process instruction techniques, cooperative learning, and integration of subject content areas. The K-2 program uses a balanced literacy approach to reading while math and science are taught through hands-on experiences. In heterogeneous classes, these students also study social studies and use computers. The 3-4 program includes literature-based reading, process writing, hands-on math and science, social studies and computers, all taught in heterogeneous classes. Teachers develop themes to integrate content areas wherever possible. Related arts instruction includes art, music, computer education, library skills, physical education, health and family life and world languages. The elementary schools each have their own principal, vice principal, guidance counselor, nurse, and media specialist. They each also have G&T Math, G&T Stretch and RTI program.

Reading-Fleming Intermediate School supports 5<sup>th</sup> and 6<sup>th</sup> grade students. The fifth grade program includes literature-based reading, process writing, hands-on math and science, social studies and computers, all taught in heterogeneous classes. Teachers develop themes to integrate content areas wherever possible. Related arts instruction includes art, music, computer education, library skills, physical education, health and family life and world languages. The sixth grade is organized as a house plan with academic teams. This supports the small school atmosphere while providing various course options. Each team of students is taught the academic subjects by a corresponding team of teachers who meet regularly to monitor student progress and plan instructional programs. Academic subjects include reading, language arts, math, science, and social studies. An expanded related arts curriculum includes instruction in world languages, art, music, computer education, library skills, physical education, and health and family life. The intermediate school houses a principal, vice principal, two counselors, and 1 and 1/2 nurses. They also have G&T Math, G&T Stretch and RTI program.

J.P. Case Middle School was opened in January 2006. It is organized as a house plan with academic teams at each grade level. This supports the small school atmosphere while providing various course options. Each team of students is taught the academic subjects by a corresponding team of teachers who meet regularly to monitor student progress and plan instructional programs. Academic subjects include reading, language arts, math, science, and social studies. An expanded related arts curriculum includes instruction in world languages, home economics, art, music, computer education, library skills, physical education, and health and family life. The middle school houses a principal, two vice principals, two counselors and one and a half nurses. They also have a G&T Stretch program.

An innovative district technology plan enhances our instructional program, facilitates and promotes independent and cooperative learning, provides relevance to students' lives and futures, and increases the probability of effective use of learned material. Our technology program extends beyond the classroom and traditional school day and prepares technologically literate students, staff, and parents.

The district provides a full range of special education programs and services. Multiple Disabled, Learning/Language Disabilities, Autism and Preschool Disabilities self-contained classes can be found throughout the district. Resource Center programs at each school offer in-class support as well as out-of-class instruction. In addition, related services of speech and occupational and physical therapy are provided to students requiring them.

The Board of Education supports an exemplary staff development plan, including a mentoring program for pre-tenured teachers and administrators. New staff members are also required to attend two days of new teacher orientation and, depending on classroom experience, up to five days of additional training. A series of after-school workshops by district staff are offered throughout the first year of teaching. The collective bargaining agreement with the Flemington-Raritan Education Association (FREA) also provides for required attendance at three full-day staff development programs, two half-day programs and eight 90-minute meetings.

# FLEMINGTON-RARITAN REGIONAL SCHOOL DISTRICT RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2014

Total net change in fund balances - governmental funds (from B-2)

\$656.924.22

Amounts reported for governmental activities in the statement of activities (A-2) are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period

Depreciation expense Capital outlays Assets not capitalized (1,791,883.48)

\$2,852,406.08 (987.42)

2,851,418.66

Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net positions and is not reported in the statement of activities.

Payment of bonds payable
Payment of capital lease payable

1,830,000.00 19,640.91

Proceeds from debt issues are a financing source in governmental funds. They are not revenue in the statement of activities; issuing debt increases long-term liabilities in the statement of net positions.

Capital lease proceeds
Deferred amortization on issuance of refunding bonds

(2,089,001.69) (72,727.00)

In the statement of activities, interest on long-term debt is accrued, regardless

of when due In governmental funds, interest is reported when due. The accrued interest is an addition in the reconciliation.

13,447.92

In the statement of activities, only the gain on the disposal of capital assets is reported, whereas in the governmental funds, the proceeds from a sale increase financial resources. Thus, the change in net positions will differ from the change in fund balance by the cost of the position removed (-).

(\$1,463.24)

In the statement of activities, certain expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation (-). When the paid amount exceeds the earned amount, the difference is an addition to the reconciliation (+).

Increase in Compensated Absences

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Flemington-Raritan Regional School District (the District) have been prepared in conformity with U.S. Generally Accepted Accounting Principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

#### **Reporting Entity**

The Flemington-Raritan Regional School District is a Type II District located in Hunterdon County, New Jersey. The School District is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials and is responsible for the fiscal control of the District. A Superintendent is appointed by the Board and is responsible for the administrative control of the District.

The primary criterion for including activities within the District's reporting entity, are set forth in Statement No. 39 of the Governmental Accounting Standards Board entitled "Determining Whether Certain Organizations are Component Units" (GASB 39) as codified in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards.

Organizations that are legally separate, tax-exempt entities and that meet *all* of the following criteria should be discretely presented as component units. These criteria are:

- 1. The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government.
- 2. The primary government, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources of the organization.
- The economic resources received or held by an *individual organization* that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government.

The combined financial statements include all funds of the District over which the Board exercises operating control. The operations of the District include four elementary schools, an intermediate school (Grades 5-6) and a middle school (Grades 7-8). There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Basis of Presentation, Basis of Accounting**

The District's basic financial statements consist of District-wide statements, including a Statement of Net Position and a Statement of Activities, and fund financial statements which provide a more detailed level of financial information.

#### **Basis of Presentation**

District-Wide Statements: The Statement of Net Position and the Statement of Activities display information about the District as a whole. These statements include the financial activities of the overall District, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. These statements distinguish generally between the governmental and business-type activity of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The Statement of Net Position presents the financial condition of the governmental and business-type activity of the District at fiscal year end. The Statement of Activities presents a comparison between direct expenses and program revenues for the business-type activity of the District and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirement of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as generally revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing or draws from the general revenues of the District.

Fund Financial Statements: During the fiscal year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements are presented for each fund category governmental, proprietary, and fiduciary. The New Jersey Department of Education (NJDOE) has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The NJDOE believes that the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting models.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Governmental Fund Types**

<u>General Fund</u> - The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment which are classified in the capital outlay subfund.

As required by the New Jersey State Department of Education, the District includes budgeted capital outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues. Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to current expense by Board resolution; in certain instances approval by the County Superintendent of Schools may also be required.

<u>Special Revenue Fund</u> - The special revenue fund is used to account for the proceeds of specific revenue sources from State and Federal Government (other than those for major capital projects, debt service or proprietary funds) and local appropriations that are restricted or committed to expenditures for specified purposes.

<u>Capital Projects Fund</u> - Capital project funds are used to account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

<u>Debt Service Fund</u> - Debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Proprietary Fund**

**Enterprise Fund** - The enterprise fund accounts for all revenues and expenses pertaining to cafeteria operations. The food service fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e. expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges.

Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

#### **Food Service Fund:**

Equipment 12 Years Light Trucks and Vehicles 4 Years Heavy Trucks and Vehicles 6 Years

#### **Fiduciary Fund Types**

<u>Agency Funds</u> – The agency funds are used to account for assets held by the district on behalf of others and are custodial in nature. The agency funds included in this category are as follows:

<u>Unemployment Compensation Insurance Trust Fund</u> - A trust fund used to account for assets to finance the costs of unemployment benefits. Since the Board has adopted the direct reimbursement method, the District is under obligation to appropriate sufficient funds out of its general fund and hold them in trust for this purpose.

<u>Payroll and Student Activities Funds (Agency)</u> - These are agency funds used to account for the assets that the District holds on behalf of others as their agent. Agency funds are custodial in nature and do not involve measurement of results of operations.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Basis of Accounting – Measurement Focus**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

Districtwide, Proprietary, and Fiduciary Fund Financial Statements: The Districtwide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures. Ad Val Orem (Property) Taxes are susceptible to accrual as under New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available.

The District is entitled to receive monies under the established payment schedule and the unpaid amount is considered to be an "accounts receivable". Revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. "Measurable" means the amount of the transactions can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

All governmental and business type activities and enterprise funds of the District follow FASB Statements and Interpretations issued on or before November 30, 1989, Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Budgets/Budgetary Control**

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. The budgets are submitted to the county office. In accordance with P.L. 2011, c. 202, which became effective January 17, 2012, the District elected to move the School Board election to the date of the November general election thereby eliminating the vote on the annual base budget unless required by the mandated State budget CAP. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23-2.2(f)1. Expenditures may not legally exceed budgeted appropriations at the line item level. All budget amendments and transfers must be approved by School Board resolution. Budget amendments during the year ended June 30, 2014 totaled \$980,000.00, representing the Board resolution to transfer funds to the Capital Reserve Fund.

All budget amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budgets during the year).

Appropriations, except remaining project appropriations, encumbrances, and unexpended grant appropriations, lapse at the end of each fiscal year. The capital projects fund presents the remaining project appropriations compared to current year expenditures.

Formal budgetary integration into the accounting system is employed as a management control device during the fiscal year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles (GAAP) with the exception of the legally mandated (NJSA 18A:22-44.2) revenue recognition of deferred State Aid payments for budgetary purposes only and the accounting treatment of encumbrances in the special revenue fund as described below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial records.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Encumbrance Accounting**

Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as assigned fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund and capital projects fund for which the District has received advances are reflected in the balance sheet as deferred revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

#### Interfunds

Interfund receivables and payables arise from transactions between particular funds and are considered short term in duration. The interfund transactions are recorded by all funds affected in the period in which the transactions are executed and are part of the district's available spendable resources.

#### **Inventories and Prepaid Expenses**

Inventories of materials and supplies held for consumption in the governmental funds are recorded as expenditures at the time of purchase and year end balances are not reported in the financial statements.

Inventories of food and/or supplies in the food service fund are recorded at cost on a first-in, first-out basis or, in the case of Food Distribution Commodities, at stated value which approximates market.

Prepaid expenses which benefit future period, other than those recorded in the enterprise fund, are recorded as an expenditure in the year of purchase.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Capital Assets**

The District has an established formal system of accounting for its capital assets. Capital Assets used for governmental purposes, which include land, buildings and improvements and furniture and equipment, are only reported in the district-wide financial statements. The District generally defines capital assets as assets with an initial cost of \$2,000.00 or more and an estimated useful life in excess of one year. Purchased or constructed capital assets are reported at cost. Donated capital assets are valued at their estimated fair market value on the date received. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated in the district-wide statements using the straightline method over the following estimated useful lives:

Asset Class	Estimated <u>Useful Lives</u>
School Buildings	50
Building Improvements	20
Electrical/Plumbing	30
Vehicles	8
Office & Computer Equipment	5-10
Instructional Equipment	10
Grounds Equipment	15

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Compensated Absences**

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences." A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

The liability for compensated absences was accrued using the termination payment method, whereby the liability is calculated based on the amount of sick leave and vacation days that are expected to become eligible for payment upon termination. The District estimates its accrued compensated absences liability based on the accumulated sick and vacation days at the balance sheet date by those employees who are currently eligible to receive termination payments.

For the district-wide statements, the current portion is the amount estimated to be used in the following year. For the governmental funds in the fund financial statements, a liability is reported only for to the extent of the amount actually due at year end as a result of employee resignations/retirements. Compensated absences are a reconciling item between the fund level and district-wide presentations.

#### **Unearned Revenue**

Unearned revenue in the special revenue and capital projects funds represents funds which have been received but not yet earned. A corresponding accounts receivable has also been established for any open encumbrances at year end which is an allowable practice under generally accepted accounting principles.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Accrued Liabilities and Long-Term Obligations**

All payables, accrued liabilities, and long-term obligations are reported on the District-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, contractually required pension contributions and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year. Long term debt is recognized as a liability on the fund financial statements when due.

#### **Net Position**

GASB 63 provides guidance for reporting net position in the statement of financial position and related disclosures. In compliance with GASB 63, the Statement of Net Assets has been renamed the Statement of Net Position. Net Position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net positions are available.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Fund Balance Restrictions**

The District implemented GASB Statement 54, "Fund Balance Reporting and Governmental Fund Type Definitions". This statement modifies fund balance reporting and clarifies fund type definitions. This new Statement aims to enhance the usefulness of fund balance information by providing clearer fund balance clarifications that can be applied more consistently.

Under the new standard, in the fund financial statements, governmental funds report the following classifications of fund balance:

Nonspendable – includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

<u>Restricted</u> – includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation. The District reports the Capital Reserve, Emergency Reserve, Maintenance Reserve and Excess Surplus as Restricted Fund Balance.

<u>Committed</u> – includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to resolutions passed by the Board of Education, the District's highest level of decision making authority. Commitments may be modified or rescinded only through resolutions approved by the Board of Education. The District reports amounts Designated for Subsequent Year's Expenditures as Committed Fund Balance.

<u>Assigned</u> – includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Under the District's policy, amounts may be assigned by the Business Administrator. The District reports Year End Encumbrances as Assigned Fund Balance.

<u>Unassigned</u> – includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose within the General Fund. The District reports all amounts that meet the unrestricted General Fund Balance Policy described below as unassigned:

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balance are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed.

### <u>Notes to the Financial Statements</u> For the Fiscal Year Ending June 30, 2014

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Fund Balance Restrictions (Continued)**

The general fund is the only fund that will report a negative unassigned fund balance. For all other governmental funds the amount of a residual deficit would be classified as unassigned.

#### **Revenues – Exchange and Non-Exchange Transactions**

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means within sixty days of the fiscal year end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered both measurable and available at fiscal year end: property taxes available as an advance, interest, and tuition.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Operating Revenues and Expenses**

Operating revenues are those revenues that are generated directly from the primary activity of the enterprise fund. For the District, these revenues are sales in the Enterprise Funds. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the enterprise fund.

#### Allocation of Indirect Expenses

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses are allocated to functions but are reported separately in the Statement of Activities. Employee benefits, including the employer's share of social security, workers compensation, and medical and dental benefits, were allocated based on salaries of the program. Depreciation expense, where practicable, is specifically identified by function and is included in the indirect expense column of the Statement of Activities. Depreciation expense that could not be attributed to a specific function is considered an indirect expense and is reported separately on the Statement of Activities.

#### **Extraordinary and Special Items**

Extraordinary items are transactions or events that are unusual in nature and infrequent of occurrence. Special items are transactions or events that are within control of management and are either unusual in nature or infrequent in occurrence. Neither of these types of transactions occurred during the fiscal year.

#### **Management Estimates**

The preparation of financial statements in conformity with GAAP requires management to make assumptions that affect the amounts reported as revenue and expenditures/expenses during the reporting period. These estimates may differ from actual results.

#### NOTE 2: CASH AND CASH EQUIVALENTS AND INVESTMENTS

The District considers petty cash, change funds, cash in banks, deposits in the New Jersey Cash Management Fund, and short-term investments with original maturities of three months or less as cash and cash equivalents. Investments are stated at cost, which approximates market.

#### **Deposits**

New Jersey statutes permit the deposit of public funds in public depositories which are located in New Jersey and which meet the requirements of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA requires a bank that accepts public funds to be a public depository. A public depository is defined as a state bank, a national bank, or a savings bank, which is located in the State of New Jersey, the deposits of which are insured by the Federal Deposit Insurance Corporation. The statutes also require public depositories to maintain collateral for deposits of public funds that exceed certain insurance limits. Each depository participating in the GUDPA system must pledge collateral equal to 5% of the average amount of its public deposits and 100% of the average amount of its public funds in excess of 75% of its capital funds. No collateral is required for amounts covered by FDIC insurance. The collateral which may be pledged to support these deposits includes obligations of the State and federal governments, insured securities and other collateral approved by the Department. When the capital position of the depository deteriorates or the depository takes an unusually large amount of public deposits, the Department of Banking and Insurance requires additional collateral to be pledged. Under (GUDPA), if a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of the deposits to the governmental unit.

As of June 30, 2014, cash and cash equivalents of the District consisted of the following:

	Bank	NJ Cash	Reconci	Reconciled		
Fund Type	<u>Balance</u>	<u>Management</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance</u>	
_						
Governmental	\$6,442,147.06	\$656,210.31	\$54.09	\$868,118.93	\$6,230,292.53

#### NOTE 2: CASH AND CASH EQUIVALENTS AND INVESTMENTS (CONTINUED)

#### **Deposits (Continued)**

<u>Custodial Credit Risk – Deposits</u> – Custodial credit risk is the risk that in the event of a bank failure, the deposits may not be returned. The District does not have a specific deposit policy for custodial credit risk other than those policies that adhere to the requirements of statute. As of June 30, 2014, based upon the coverage provided by FDIC and NJ GUDPA, no amount of the bank balance was exposed to custodial credit risk. Of the cash on balance in the bank \$250,000.00 was covered by Federal Depository Insurance and \$7,168,221.50 was covered by NJ GUDPA. The New Jersey Cash Management Fund is an investment pool and is not insured by either FDIC or GUDPA.

#### <u>Investments</u>

The types of investments which may be purchased by the District are strictly limited by the express authority of the N.J.S.A. 18A:20-37 Education, Administration of School Districts. Permitted investments include any of the following type of securities:

- 1. Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America;
- 2. Government money market mutual funds which are purchased from an investment company or investment trust which is registered with the Securities and Exchange Commission under the "Investment Company Act of 1940," 15 U.S.C. 80a-1 et seq., and operated in accordance with 17 C.F.R. § 270.2a-7 and which portfolio is limited to U.S. Government securities that meet the definition of an eligible security pursuant to 17 C.F.R. § 270.2a-7 and repurchase agreements that are collateralized by such U.S. Government securities in which direct investment may be made pursuant to paragraphs (1) and (3) of N.J.S.A. 18A:20-37. These funds are also required to be rated by a nationally recognized statistical rating organization.
- 3. Any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided that such obligation bears a fixed rate of interest not dependent on any index or other external factor.
- 4. Bonds or other obligations of the Local Unit or bonds or other obligations of school districts of which the Local Unit is a part or within which the school district is located.

#### NOTE 2: CASH AND CASH EQUIVALENTS AND INVESTMENTS (CONTINUED)

#### **Investments (Continued)**

- 5. Bonds or other obligations, having a maturity date not more than 397 days from date of purchase, approved by the Division of Investment of the Department of Treasury for investment by School Districts.
- 6. Local government investment pools that are fully invested in U.S. Government securities that meet the definition of eligible security pursuant to 17 C.F.R. § 270a-7 and repurchase agreements that are collateralized by such U.S. Government securities in which direct investment may be made pursuant to paragraphs (1) and (3) of N.J.S.A. 18A:20-37. This type of investment is also required to be rated in the highest category by a nationally recognized statistical rating organization.
- 7. Deposits with the State of New Jersey Cash Management Fund established pursuant to section 1 of P.L. 1977, c.281 (C. 52:18A-90.4); or
- 8. Agreements for the repurchase of fully collateralized securities if:
  - a. the underlying securities are permitted investments pursuant to paragraphs (1) and (3) of this subsection;
  - b. the custody of collateral is transferred to a third party;
  - c. the maturity of the agreement is not more than 30 days;
  - d. the underlying securities are purchased through a public depository as defined in section 1 of P.L. 1970, c.236 (C. 17:19-41); and;
  - e. a master repurchase agreement providing for the custody and security of collateral is executed.

As of June 30, 2014, the District has \$656,210.31 on deposit with the New Jersey Cash Management Fund. Based upon the limitations set forth by New Jersey Statutes 40A:5-15.1 and existing investment practices of the Investment Council of the New Jersey Cash Management Fund, the District is generally not exposed to credit risks and interest rate risks for its investments, nor is it exposed to foreign currency risk for its deposits and investments.

#### NOTE 4: LONG-TERM LIABILITIES

Bonds are issued by the District pursuant to the provisions of Title 18A, Education, of the New Jersey Statutes and are required to be approved by the voters of the municipality through referendum. The proceeds of bonds are recorded in the Capital Projects Fund and are restricted to the use for which they were approved in the bond referendum. All bonds are retired in annual installments within the statutory period of usefulness.

School Bonds issued by the District are entitled to and benefit from the provision of the New Jersey School Board Reserve Act P.L. 1980 c.72. Basically, funds are held by the State of New Jersey within its State Fund for the Support of Free Public Schools as a school bond reserve pledged by law to secure payment of principal and interest due on such bonds in the event of the inability of the issuer to make payments.

The following is a summary of changes in liabilities that effect other long-term obligations for the year ended June 30, 2014:

#### NOTE 5: PENSION PLANS

<u>Description of Plans</u> - All required employees of the District are covered by either the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, N.J., 08625 or on line at www.state.nj.us/treasury/pensions.

Teachers' Pension and Annuity Fund (TPAF) - The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

Public Employees' Retirement System (PERS) - The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provision of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state or local jurisdiction.

**Defined Contribution Retirement Program (DCRP)** - The Defined Contribution Retirement Program (DCRP) was established under the provision of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 to provide coverage to elected and certain appointed officials, effective July 1, 2007. Membership is mandatory for such individuals with vesting occurring after one year of membership.

#### NOTE 5: PENSION PLANS (CONTINUED)

#### Significant Legislation

Effective June 28, 2011, P.L. 2011, c. 78 enacted certain changes in the operations and benefit provisions of the TPAF and the PERS systems.

#### Pension Plan Design Changes

Effective June 28, 2011, P.L. 2011, c. 78, new members of TPAF and PERS, hired on or after June 28, 2011, will need 30 years of creditable service and have attained the age of 65 for receipt of the early retirement benefit without a reduction of 1/4 of 1% for each month that the member is under age 65. New members will be eligible for a service retirement benefit at age 65.

#### **Funding Changes**

Under the new legislation, the methodology for calculating the unfunded accrued liability payment portion of the employer's annual pension contribution to the PERS, and TPAF. The unfunded actuarial accrued liability (UAAL) will be amortized for each plan over an open-ended 30 year period and paid in level dollars. Beginning with the July 1, 2019 actuarial valuation (July 1, 2018 for PFRS), the UAAL will be amortized over a closed 30 year period until the remaining period reaches 20, when the amortization period will revert to an open-ended 20 year period.

#### COLA Suspension

The payment of automatic cost-of-living adjustment to current and future retirees and beneficiaries are suspended until reactivated as permitted by this law.

<u>Vesting and Benefit Provisions</u> - The vesting and benefit provisions of PERS are set by N.J.S.A. 43:15A and 43.3B, and N.J.S.A. 18A:6C for TPAF. All benefits vest after ten years of service, except for post-retirement healthcare benefits that vest after 25 years of service.

Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

#### NOTE 5: PENSION PLANS (CONTINUED)

<u>Contribution Requirements</u> - The contribution policy is set by N.J.S.A. 43:15A and N.J.S.A. 18:66, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation.

Effective June 28, 2011, P.L. 2011, c. 78 provides for increases in the employee contribution rates: from 5.5% to 6.5% plus an additional 1% phased-in over 7 years beginning in the first year, meaning after 12 months, after the law's effective date for TPAF and PERS.

Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute the District is a non-contributing employer of TPAF (*i.e.* the State of New Jersey makes the employer contribution on behalf of public school districts.

2012	\$767,747.00	100.00%	\$767,747.00					

During the fiscal years ended June 30, 2014, 2013, and 2012, the State of New Jersey contributed \$995,926.00, \$1,533,155, and \$767,747.00, respectively to the TPAF pension system on behalf of the District.

Also, in accordance with N.J.S.A. 18A:66-66, the State of New Jersey reimbursed the District \$1,803,263.94 during the year ended June 30, 2014 for the employer's share of social security contributions for TPAF members, as calculated on their base salaries. This amount has been included in the basic financial statements, and the combining and individual fund and account group statements and schedules as a revenue and expenditure in accordance with GASB 27.

#### NOTE 6: OTHER POST-RETIREMENT BENEFITS

For eligible retired employees, the School District participates in the State Health Benefits Program (SHBP), a cost-sharing, multiple-employer defined benefit post-employment healthcare plan administered by the State of New Jersey Division of Pensions and Benefits. SHBP was established in 1961 under N.J.S.A. 52:14-17.25 *et seq.*, to provide health benefits to State employees, retirees, and their dependents. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. SHBP provides medical, prescription drugs, mental health/substance abuse, and Medicare Part B reimbursement to retirees and their covered dependents.

The State Health Benefits Commission is the executive body established by statute to be responsible for the operation of the SHBP. The State of New Jersey Division of Pensions and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for the SHBP. That report may be obtained by writing to: State of New Jersey Division of Pensions and Benefits, P.O. Box 295, Trenton, NJ 08625-0295.

Chapter 384 of Public Laws 1987 and Chapter 6 of Public Laws 1990 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on state disability retirement. P.L. 2007, Chapter 103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired educational employees. As of June 30, 2013, there were 100,134 retirees eligible for post-retirement medical benefits, and the State contributed \$1.07 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with Chapter 62, P.L. 1994. Funding of post-retirement medical premiums changed from a pre-funding basis to a pay-as-you-go basis beginning in fiscal year 1994.

The State is also responsible for the cost attributable to Chapter 126, P.L. 1992, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$173.8 million toward Chapter 126 benefits for 17,356 eligible retired members in Fiscal Year 2013.

### <u>Notes to the Financial Statements</u> For the Fiscal Year Ending June 30, 2014

#### NOTE 6: OTHER POST-RETIREMENT BENEFITS (CONTINUED)

The State will set the contribution rate based on the annual required contribution of the employers (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The State's contributions to the State Health Benefits Program Fund for TPAF retirees' post-retirement benefits on behalf of the School District for the years ended June 30, 2014, 2013 and 2012 were \$1,632,945, \$1,733,612 and \$1,543,374, respectively, which equaled the required contributions for each year. The State's contributions to the State Health Benefits Program Fund for PERS retirees' post-retirement benefits on behalf of the School District was not determined or made available by the State of New Jersey.

#### NOTE 7: LITIGATION

The District's counsel advises that there is no litigation, pending litigation, claims, contingent liabilities, unasserted claims or assessments or statutory violations which involve the School District and which might materially affect the District's financial position.

#### NOTE 8: CONTINGENCIES

The Board receives financial assistance from the State of New Jersey and the U.S. Government in the form of grants. Entitlement to the funds is generally conditional upon compliance with terms and conditions of the grant agreements and applicable regulations, including the expenditure of the funds for eligible purposes. The State and Federal grants received and expended in the 2013-2014 fiscal year were subject to the U.S. OMB A-133 and New Jersey OMB Circular 04-04 which mandates that grant revenues and expenditures be audited in conjunction with the Board's annual audit. Findings and questioned costs, if any, relative to federal and state financial assistance programs will be discussed in the Single Audit Section, Schedule of Findings and Questioned Costs. In addition, all grants and cost reimbursements are subject to financial and compliance audits by the grantors. Further, the School Child Nutrition Program is a recipient of federal reimbursements and is subject to certain related federal regulations. These federal reimbursements are subject to subsequent audit and interpretation by the New Jersey Department of Education. The District management does not believe such an audit would result in material amounts of disallowed costs.

#### NOTE 9: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

<u>Property and Liability Insurance</u> - The District maintains insurance coverage covering each of those risks of loss. The administration believes such coverage is sufficient to preclude any significant uninsured losses to the District. Settled claims have not exceeded the insurance coverage in any of the past three fiscal years.

New Jersey Unemployment Compensation Insurance - The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The table on the following page is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid, and the ending balance of the District's expendable trust fund for the current and previous two years:

Fiscal <u>Year</u>	Interest <u>Earnings</u>	Contributions	Amount Reimbursed	Ending <u>Balance</u>
2013-14	\$ 898.88	\$ 79,448.36	\$ 71,252.13	\$ 315,389.60
2012-13	329.84	263,211.27	109,650.18	306,294.49
2011-12	614.39	195,300.88	436,927.64	152,403.56

#### NOTE 10: COMPENSATED ABSENCES

The District accounts for compensated absences (e.g. unused vacation and sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the amount to subsequent years. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the Districts agreements with the various employee unions.

The liability for vested compensated absences of the governmental fund types are recorded in the district - wide statement of net position. As of June 30, 2014, a liability existed for compensated absences for governmental fund-types in the district-wide Statement of Net Position of \$1,081,265.62.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2014 no liability existed for compensated absences in the proprietary fund.

For additional descriptive information see Note 1, Summary of Significant Accounting Policies.

#### NOTE 11: FUND BALANCE APPROPRIATED

**General Fund** – Of the \$6,933,740.55 General Fund fund balance at June 30, 2014, \$3,892,090.90 is restricted as excess surplus in accordance with N.J.S.A. 18A:7F-7, of which \$2,179,345.00 has been appropriated and included as anticipated revenue for the year ending June 30, 2014, \$1,056,596.04 has been restricted in the Capital Reserve Account; \$1,148,266.22 is assigned for encumbrances; and \$836,787.39 is unassigned.

<u>Debt Service Fund</u> – Of the \$42,521.42 in Debt Service Fund fund balance at June 30, 2014, \$42,149.00 has been appropriated and included as anticipated revenue in the 2014-2015 Budget and \$372.42 is committed to debt service.

#### <u>Notes to the Financial Statements</u> <u>For the Fiscal Year Ending June 30, 2014</u>

#### NOTE 12: CALCULATION OF EXCESS SURPLUS – BUDGETARY BASIS

The Restricted Fund Balance - Excess Surplus is a required calculation pursuant to *N.J.S.A.* 18A:7F-7, as amended. New Jersey school districts are required to reserve General Fund fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget.

General Fund Expenditures Fiscal Year Ended June 30, 2014	\$58,636,846.30
Less: On-behalf TPAF Pension and Social Security Reimbursement Assets acquired under Capital Leases	4,432,134.94 2,089,001.69
Adjusted General Fund Expenditures	\$52,115,709.67
Excess Surplus Percentage 2% of Adjusted 2013-14 General Fund Expenditures	2.00% 1,042,313.39
Add: Allowable Adjustments	387,062.00
Maximum Unreserved/Undesignated Fund Balance	1,429,375.39
Actual Unreserved/Undesignated Fund Balance	3,142,121.29
Excess Surplus - current year	<u>\$1,712,745.90</u>

Based on the above calculation, as of June 30, 2014, \$2,179,345.00 is reported as Reserved Fund Balance - Excess Surplus Designated for Subsequent Year's Expenditure and was required to be appropriated for property tax relief in the 2014-15 budget. \$1,712,745.90 is reported as Restricted Fund Balance - Excess Surplus and is required to be appropriated for property tax relief in the 2015-16 budget.

#### NOTE 13: INTERFUND RECEIVABLES AND PAYABLES

<u>FUND</u>	INTERFUND RECEIVABLE	INTERFUND PAYABLE
General Fund Special Revenue Fund Payroll Agency Fund	\$ 121,869.11 \$	105,905.90 15,963.21
	\$ 121,869.11 \$	121,869.11

The interfund balance resulted from interest earned in the payroll agency fund that has not been turned over to the General Fund and a cash deficit in the Special Revenue Fund.

#### NOTE 14: CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the District by the inclusion of \$1.00 in the 2000-2001 school year for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the Department of Education, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by Board resolution at year end (June 1 to June 30) of any unanticipated revenue or unexpended line item appropriations, or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained by either a separate proposal at budget time or by a special question at one of the four special election dates authorized by N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

#### NOTE 14: CAPITAL RESERVE ACCOUNT (CONTINUED)

#### **Capital Reserve Account**

Beginning balance, July 1, 2013 \$75,837.66

Transferred by Board Resolution \$980,000.00 Interest earned 758.38

980,758.38

Ending balance, June 30, 2014 \$1,056,596.04

#### NOTE 15: <u>DEFERRED COMPENSATION</u>

The District offers its employees a choice of the deferred compensation plans created in accordance with Internal Revenue Code Section 403(b) and 457. The plans permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death, or unforeseeable emergency. Since the Board does not have any property or rights to the plan assets and no fiduciary relationship exists between the District and the deferred compensation plan, the plan assets are not included in the District's financial statements as of June 30, 2014.

#### NOTE 16: INVENTORY

Inventory in the Food Service Fund at June 30, 2014 consisted of the following:

Food and Supplies \$25,130.83

The value of Federal donated commodities as reflected on Schedule A (required by the Single Audit Act amendments of 1996) is the difference between market value and cost of the commodities at the date of purchase and has been included as an item of non-operating revenue in the financial statements.

#### NOTE 17: SUBSEQUENT EVENTS

The District has evaluated material subsequent events occurring after the financial statement date through October 21, 2014 which is the date the financial statements were available to be issued. The District has determined that there are no material subsequent events needed to be disclosed.

PROPRIETARY FUND DETAIL S	STATEMENTS
---------------------------	------------

Proprietary funds are used to account for operations that are financed and operated in a manner similar to private business enterprises – where the intent of the District's board is that the costs of providing goods or services be financed through user charges.

**Food Services Fund:** This fund provides for the operation of food services within the District.

THIS SECTION HAS ALREADY BEEN INCLUDED IN STATEMENTS
B-4,B-5 AND B-6

#### FIDUCIARY FUND DETAIL STATEMENTS

Fiduciary Funds are used to account for funds received by the district for a specific purpose:

**Unemployment Compensation Insurance Fund:** This trust fund is used to pay unemployment compensation claims as they arise.

Agency Funds are used to account for assets held by the district as an agent for another party:

**Student Activity Fund:** This agency fund is used to account for student funds held at the schools

**Payroll Fund:** This agency fund is used to account for the payroll transactions of the school district.

NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy. The levy when added to other components of the district's net budget may not exceed the prebudget year net budget by more than the spending growth limitation calculated as follows: the prebudget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

- (a) The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net valuation taxable
- (b) Rates for debt service are based on each year's requirements.

Total direct and overlapping debt			\$82,351,422.12

Source: Municipal Chief Financial Officer, County Treasurer's Office

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the district. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.

(a) For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF BASIC FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable President and Members of the Board of Education Flemington-Raritan Regional School District County of Hunterdon Flemington, New Jersey 08822

We have audited, in accordance with the auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Flemington-Raritan Regional School District (the "District") as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's financial statements, and have issued our report thereon dated October 21, 2014.

#### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Flemington-Raritan Regional School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

## SUPLEE, CLOONEY & COMPANY

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Honorable President and Members of the Board of Education Flemington-Raritan Regional School District County of Hunterdon Flemington, New Jersey 08822

#### Report on Compliance for Each Major Federal and State Program

We have audited the Flemington-Raritan Regional School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* and the New Jersey *OMB State Grant Compliance Supplement* that could have a direct and material effect on each of the Flemington-Raritan Regional School District's major federal and state programs for the year ended June 30, 2014. The District's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Flemington-Raritan Regional School District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *OMB Circular A-133*, *Audits of States, Local Governments, and Non-Profit Organizations* and New Jersey *OMB 04-04*. Those standards, *OMB Circular A-133* and New Jersey *OMB 04-04* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the Flemington-Raritan Regional School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the Flemington-Raritan Regional School District's compliance.

### SUPLEE, CLOONEY & COMPANY

#### Opinion on Each Major Federal and State Program

In our opinion, the Flemington-Raritan Regional School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2014.

#### Report on Internal Control Over Compliance

Management of the Flemington-Raritan Regional School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Flemington-Raritan Regional School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with *OMB Circular A-133* and New Jersey *OMB 04-04*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Flemington-Raritan Regional School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of *OMB Circular A-133* and State of New Jersey *OMB 04-04*. Accordingly, this report is not suitable for any other purpose.

# Flemington-Raritan Regional School District Notes to the Schedules of Expenditures of Federal Awards and State Financial Assistance Year Ended June 30, 2014

#### NOTE 1: GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state activity of the Board of Education, Flemington-Raritan Regional School District. The Board of Education is defined in Note 1 to the Board's basic financial statements. All federal and state awards received directly from the federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financials assistance.

#### NOTE 2: BASIS OF ACCOUNTING

The accompanying schedules of expenditures of awards and federal awards and state financial assistance are presented on the budgetary basis of accounting with the exceptions of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 of the Board's basic financial statements. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

#### NOTE 3: RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedule (RSI) are presented for the general fund and special revenue fund to demonstrate finance-regulated legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The General fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenue, whereas GAAP basis does not. The special revenue fund also recognizes the last state aid payment in the current budget year, consistent with N.J.S.A. 18A:22-44.2.
